

Modified Industrial Infrastructure Upgradation Scheme (MIIUS)

Industrial Infrastructure Upgradation Scheme (IIUS) was launched in 2003 with the objective of enhancing industrial competitiveness of domestic industry by providing quality infrastructure through public private partnership in selected functional clusters/locations which have potential to become globally competitive. The Scheme was recast in February, 2009 on the basis of an independent evaluation to strengthen the implementation process. In place of IIUS, a modified version of IIUS viz 'Modified Industrial Infrastructure Upgradation Scheme (MIIUS)' was notified in July 2013. Under MIIUS, projects have been undertaken to upgrade infrastructure in existing Industrial Parks/ Estates/ Areas. Greenfield Projects have also been undertaken in backward areas and North Eastern Region (NER). Projects are being implemented by the State Implementing Agency (SIA) of the State Government. Central Grant upto 50% of the project cost with a ceiling of Rs.50.00 crore is provided under MIIUS with at least 25% contributions of State Implementing Agency and in case of North Eastern States, the central grant and minimum contribution of the SIA are up to 80% and 10% respectively. A two stage approval mechanism has been retained in the MIIUS. Final approval has been accorded to 24 projects with central grant amounting to Rs. 604.71 crore and 6 projects with central grant of Rs.129.91 crore are at 'in-principle' approval stage. Central assistance of Rs. 203.18 crore has been released to 22 projects as on 31.03.2017 under MIIUS.
